

Mr Shephard and Mr Hunnells
Places not easily forgotten

Believe me with best respects
to Mr Gray, to whom Mrs
Leffroy begs to be most kindly
remembered, very truly
Yours

J H Leffroy

Prof. Asa Gray

Bermuda.

GOVERNMENT HOUSE,
MOUNT LANGTON.

Nov 24. 1874

My dear Professor Gray.

Mrs Leffroy and I have
returned to our post after
a very pleasant holiday of
5 months, and I write to
express our joint hope that
you and Mrs Gray will
really carry out your half
promise to pay us a visit
Prof. Asa Gray this

this winter. We expect my
married daughter Mrs French
with her husband and child
some time in the early spring,
probably March, and as our
house is of very limited capacity
it would greatly gratify us
if we could tempt you here
in January or February. Botani-
cally there is something to be
done here at all seasons,
and the change is perhaps
greater in the mid-winter

than at any other time. There
is now a very safe and com-
fortable steamer from N York

I hope the Ferns which
my Gardener was instructed
to send you reached you
alive. The Authorities at
Kew quite confirmed your
identification of *Aspidium*
Thelypteris. but they altered
several of Dr Reins names.
We have the most pleasant
recollection of our day at
